## STUDENT CONDUCT

- Each student is expected to assume their share of responsibility in maintaining an atmosphere conducive to effective teaching-learning situations in all classes and activities in which they participate under the sponsorship of the school.
- Each student shall respect the rights of other students, teachers, administrators, other school personnel, and visitors.
- Each student shall respect the personal property of others and refrain from causing damage to books, facilities, school materials, school buildings and furnishings, and the personal property of others.
- Each student shall refrain from fighting, creating disturbances, denying others the use of school facilities or buildings, using or carrying any weapon on school grounds, intentionally injuring another person, or acting in such a manner as to expose others to risk or danger of harm or injury. A student shall not use threats or intimidation against any other person.
- Each student shall respect the health and safety of themselves and others. They shall refrain from using or transmitting tobacco; using, possessing, transmitting, or being under the influence of illegal drugs or alcohol; or, engaging in any activity which diminishes the rights of others and the opportunity for other students to receive an education and obtain the maximum benefit from a public education.
- Students may be disciplined, including out of school suspensions or expulsions, for STUDENT CODE OF CONDUCT violations to or from school, or a school-related activity. Conduct off school premises may also be a basis for disciplinary action if the conduct creates, or is reasonably likely to lead to significant disruption of or significant interference with a safe and productive learning environment, or to create unsafe or disruptive conditions at school sponsored activities. Students violating the rules of conduct may be subject to disciplinary action, and/or possible suspension or expulsion from school, and/or referral to appropriate law enforcement officials. Additionally, when appropriate, administration may elect to use **restorative practices** in order to address certain types of behavioral issues.

## STUDENT ATTENDANCE

### COMMON DEFINITIONS OF CHRONIC ABSENTEEISM and TRUANCY

**Chronic Absenteeism:** When students miss 10% or more of scheduled school days (to date). This includes excused and unexcused absences.

**Truancy:** 10 unexcused absences in a school year.

At all levels (elementary, middle and high school), interventions will be taken to promote good attendance for all students.

Absences that **DO NOT COUNT** against a student include, however not limited to the following:

- Snow days and nonscheduled school closings
- Medical or Family Death absences
- Suspensions and expulsions
- Preplanned absences that would not negatively affect student learning

### EXCUSED ABSENCES

There are times when illness or a family emergency will make it necessary for a student to be absent. In such an event the following procedures must be followed:

- Parent/guardian is to call Crestwood at 455-1200 to report student's absence within 24 hours to be considered excused. Please give the pupil's name, grade, who is calling and reason for their absence. Absences can be called in 24 hours a day using the absence menu option. Pupils returning to school after a REPORTED absence will be considered excused. Absences for religious holidays will be considered excused.

#### UNEXCUSED ABSENCES

Failure to follow procedures for excused absences will result in an unexcused absence. An unexcused absence means an E in all classes for the day(s) or period(s) missed. Consequences for unexcused absences are covered in STUDENT CODE OF CONDUCT.

#### LATE TO CLASS

Defined as arrival in the classroom after the scheduled time class is to begin. Students are expected to report to class on time. Students reporting to class late and without a pass will be marked Tardy.

- Students who arrive late to school (after 8:15am) must report directly to the Office for an "Admit Slip" pass.

#### EARLY DISMISSAL

Students who leave school early must have a parent/guardian sign them out prior to leaving, and upon return should the student return the same day.

#### ILLNESS DURING SCHOOL DAY

If a student becomes ill during the school day, he/she should notify the classroom teacher or come to the Office. Parent contact will be made by the Office personnel/student to determine what arrangements can be made for the student.

#### MEDICAL APPOINTMENTS

An appointment slip, authorized note, or telephone call from parent/guardian is required either in advance or on the day of the appointment. Absences accompanied by a Dr. note / Excuse Slip will be Extenuated.

#### EXTENDED ABSENCES

If a student is to be absent for several days due to family business or a vacation, notification from a parent/guardian is requested in advance so the student can obtain an Extenuation of Absence slip from the Office. The student will be responsible for any advance assignments from his/her instructors. These assignments are due upon return unless prior arrangement is made with the instructor. This signed slip should be returned to the Office in advance of the planned absence in order to accurately record attendance.

#### MAKE-UP ASSIGNMENTS AND TESTS

Students with excused absences will be given the number of school days equal to the number of days absent to complete make-up work. Arrangements can be made to spend extra time after school to make up work with a teacher. Students may ride the activity bus home on Tuesday, Wednesday, and Thursday with a bus pass from a staff member. Homework, major projects and tests assigned prior to the absence will be due or made-up on the day of return unless other arrangements are agreed upon with the teacher. Students or parents should contact their teacher(s) to arrange for homework assignments if the absence is projected to be more than three days in duration. Please allow 24 hours to get the assignments. Work completed during a suspension is due upon return in order to obtain full credit. (For homework over vacations, see EXTENDED ABSENCES).

#### INCLEMENT WEATHER-SCHOOL CLOSING

The announcement of school closing will be on radio stations WOOD, WLAV, and WGRD and TV stations WZZM and WOTV by 6:00 a.m. Additionally, closing/delay information will be posted to our Facebook page.

- Night activities (other than sports) shall continue as scheduled unless a separate announcement is made to the contrary by 2:00 p.m.
- All sporting events are canceled if either of the participating schools close due to inclement weather.

It is highly recommended that any student receiving a grade of "D" or below take advantage of this extra learning opportunity to enhance their skills and prepare them for the next academic year.

## STUDENT DRESS CODE

The Board of Education has concluded that a dress code policy should reflect learning, self-respect, and respect for others and should promote the District's overall educational environment. Accordingly, the Board of Education has adopted this dress code policy, which is applicable to all students in the District. Parents and students are equally responsible for students' proper attire. In addition, the Board of Education authorizes the District's Superintendent, or designee, to review and approve such modifications to this policy as may be reasonable and appropriate to meet the needs of specific buildings, class levels, programs, and activities.

NOTE: Medication is to be taken home at the end of the school year. Any unclaimed medication will be disposed of.

## **ACADEMIC PROMOTION / RETENTION**

To prepare students with the knowledge and skills to succeed in the 21st Century, the State of Michigan has enacted a rigorous set of Grade Level Content Expectations (GLCE's). This curriculum articulates what is expected that students understand and master as they progress kindergarten through 8th grade. These expectations prepare students to successfully meet high school Michigan Merit curriculum standards and state graduation requirements. Students will be assessed throughout each school year and annually in grades 3-8 on the Michigan Education Assessment Program (MEAP). Students who meet grade level expectations will be promoted to the next grade. Students who have NOT demonstrated sufficient understanding and mastery may be retained and/or provided additional learning opportunities to meet these standards. Exceptions may be made based on mitigating circumstances as determined by the principal. It is the expectation that students are working at their grade level.

Grade level placement shall be the responsibility of the building principal who shall consult with the superintendent when in his/her judgment borderline cases might create controversy between parent and the school;

Grade level placement shall be based on the following criteria:

- Academic achievement and ability as indicated by standardized test scores and other assessments that demonstrate the students' understanding and mastery of grade level expectations;
- Input by the classroom teacher or teachers regarding the students' achievement and ability;
- Chronological age of student;
- Size and physical development of the student;
- Social maturity of the student; and
- Emotional maturity of the student.

Parents will be notified throughout the school year regarding their child's progress with recommendations to assist the student to reach grade level expectations. As soon as the teacher feels that retention may be recommended, a conference or other notification to the parents will be made. At the elementary level, the teacher's recommendation of retention shall be made to the principal at least six weeks before the end of the school year. Within 3 weeks of the end of the school year, a conference may be requested by the parents, teacher, or principal for the purpose of discussing the recommendation.

After the conference, the principal, in consultation with the teacher shall make the final decision as to whether or not the student should be retained. Written statements signed by the parent, principal, and teacher will be included in the student's permanent record file when any of the following retention/promotion decisions are finalized:

- Parent agrees with retention recommendation
- Parent disagrees with retention recommendation and child is retained
- Parent disagrees with retention recommendation and child is advanced to the next grade. (This situation is based on mitigating circumstances and requires administrative approval.)

Promotions from elementary to middle school or middle school to the high school shall be determined by the sending building principal. A single failure will not necessarily require retention.

Potential failure of middle school and high school students should be called to the attention of both student and parents by mid-semester and an effort made to confer with the parent concerning the potential failure.

At the middle school level students must demonstrate grade level understanding and mastery by passing all semesters of English Language Arts and mathematics. Students may be provided alternative instructional programs, summer school, tutoring and mentoring to assist them to meet academic requirements. Students failing other core subject matter (science & social studies) may be required to meet these standards with successful completion of after school or summer school instruction.

High school students must accrue credits and successfully meet course requirements to meet graduation requirements.

#### **SPECIAL EDUCATION**

Students will have their grades and placement reviewed at annual I.E.P. meetings.

#### **ACTIVITIES AND ATHLETICS**

##### **STUDENT ACTIVITIES AND CLUBS**

## BEHAVIOR SUPPORT

### KENTWOOD MIDDLE SCHOOL DEMERIT SYSTEM

Our after-school activities, grade-level End of the Year Trip, and 8th Grade Banquet are activities designed to reward students for positive behavior at school. To encourage and help monitor this, we have adopted the following program. Attendance at our after school activities (dances) and the end of the year class trips is a reward offered to students who have exhibited good behavior at school. It is our hope that these activities serve as an incentive for students as they make behavior choices during their time at school.

Teams will follow their established behavior procedures and exhaust all outlined steps prior to making a referral. Once a Behavioral Referral is written, the following point system will be followed for each occurrence:

- All students start the year with zero points.
- Students will acquire points for various infractions accordingly:
  - 1 point: All Referrals, After School Detention, Bus Referral, 1 hour In-School Susp.
  - 2 points: Bus Suspension, 1 day In-School Suspension

## **STUDENT RECORDS**

Eligible students and parents or guardians of students under age 18 have the right to review/inspect all student records maintained by the Kentwood Public Schools. If after reviewing the records you think there are inaccurate or inappropriate entries, you have the right to request that the information be corrected or removed. A request to have the records corrected should be directed to the principal of the building in which the records are kept. If your request to change the records is denied, you have the right to request a hearing to resolve the concern. At the end of each school year, personally identifiable information that is no longer needed to provide educational services to a student may be destroyed. The building principal or designee will be responsible for completing this task.

Student record information will not be released except:

- By written consent of eligible student or parent or guardian of student under 18.
- When used for Directory Information.

- The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.
- Parents of eligible students should submit to the school principal or director of Student Services a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- The right to request the amendment of a student’s education record that the parent of an eligible student believes is inaccurate or misleading.

  - If the district decides not to amend the record as requested by the parent of eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent of eligible student when notified of the right to a hearing.
- The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. The District has published a Directory Information policy that describes the circumstances in which it will disclose designated personally identifiable information about students. Requests must be filed in writing with the Office of Student Services within 10 days of the student’s official enrollment date.

## **STUDENT CODE OF CONDUCT**

### **PURPOSE AND INTENT**

This Code of Conduct defines categories of misconduct and penalties for violations. It serves as a guide for progressive disciplinary consequences as they will be applied on all Kentwood school property, school - sponsored functions and activities, in district vehicles and transportation to and from school. Also, the Board will discipline any student for misconduct in violation of this Code, wherever it occurs, if the misconduct materially and substantially disrupts the school program, the learning process, or the safety or welfare of students or staff. (Reference: Kentwood Public Schools Board Policy Section J - students) Criminal Activity Statement - When a student's commission of or participation in a criminal activity occurs in a non-school context, school officials may, nevertheless, impose an appropriate punishment, including suspension or expulsion, when such punishment is reasonably necessary to protect the interests of the school district.

### **STUDENT DISCIPLINE**

The Board approves of the following disciplinary measures for use in the District for those students violating the District's student code of conduct: deny participation in special school activities; before or after school detention; disciplinary contractual arrangements; out-of-school suspension; in-school suspension; expulsion; and/or disciplinary probation.

Students are expected to adhere to the Code of Conduct from the time they leave their residence in the morning to the time they return home.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a significant disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to, a felony or an act that would be considered a felony if committed by an adult, an assault or battery, drug law violations, or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

### **POSITIVE BEHAVIOR INTERVENTION SUPPORT (PBIS)**

The Board believes that Positive Behavior Intervention Support systems ensure effective strategies that promote pro-social behavior and respectful learning environments. Research-based positive behavior support systems are appropriate for all students, regardless of age. Positive interventions that support adaptive and pro-social behavior and build on the strengths of the student lead to an improved learning environment. It is the policy of the Board, therefore, that the Superintendent is authorized and directed to implement a system of school-wide Positive Behavior Intervention Support (PBIS) strategies.

The Superintendent and District's administrators shall develop the appropriate procedures dealing with student conduct and shall consider an effective parent/guardian communication plan; the use of the District's counselors, social workers, and psychologists; and/or shall arrange such services with other units of state government. All employees are responsible for the regulation of student conduct

### **RESTORATIVE PRACTICES**

When appropriate, administration may elect to utilize restorative practices in order to address certain types of behavioral issues. The underlying premise of restorative practices is to provide a specific process with defined protocols that brings together those who have caused harm through their actions with those who they have directly or indirectly harmed. Specifically, these structured communication strategies seek to repair relationships and promote greater empathy among students.

The Board expects to keep district schools and students free from threats or harmful influence of any groups or gangs which advocate or require drug use, violence, or delinquent or disruptive behavior. The Board of Education does not tolerate any gang, gang-related or gang-like activity within the Kentwood Public Schools. The Board considers gang or gang-like activity to constitute gross disobedience which will result in discipline, including a lengthy suspension and/or expulsion of a student.

The superintendent shall maintain continual, visual supervision of district premises and communicate regularly with staff about issues of concern so as to deter gang intimidation of students or confrontations between members of different gangs or gang-like groups, should they exist.

The superintendent shall:

- Establish and maintain open lines of communication with local law enforcement authorities so as to share information and provide mutual support in this effort;
- Direct and monitor buildings to provide in-service training to help staff identify gangs and gang symbols, recognize early manifestations of disruptive activities, and respond appropriately to gang behavior; and training.
- In-service staff on conflict management techniques and alert staff to intervention measures and community resources which help students; and

As described in more detail in regulations adopted by the superintendent or designee, the Board prohibits the presence of any apparel, jewelry, accessory, notebook or manner of grooming which, by virtue of its color, arrangement, trademark or any other attribute, denotes membership in gangs, gang-like groups or facsimiles thereof, which advocate drug use, violence, or delinquent or disruptive behavior including intimidation and/or bullying.

#### *Definition*

Gang activity means: any activity by a group of two or more, or by an individual student on behalf of a group, whose purpose includes but is not limited to, the commission of one or more illegal, delinquent or disruptive acts that significantly interfere with or cause a significant disruption in learning or an unsafe school environment, or is reasonably likely to cause such significant interference or disruption, or acts in violation of the Student Code of Conduct and/or Board of Education policies, or the formation of a group to defend its members (by the use of physical force, threats or intimidation) against a perceived threat by another group or known gang; or where the group or gang is identifiable by name, sign, clothing, symbol, etc, or other conduct as described herein or in regulations adopted pursuant to Board policy.

#### *Prohibition against Gang-Like Activity*

Students are prohibited from engaging in any gang-like activity which means: any conduct engaged in by a student (1) on behalf of any gang or group intending to function as a gang or formed for the purpose(s) described above; or (2) to perpetuate the existence of any gang or gang-like group; (3) to affect a common purpose and design of any gang; or (4) to represent, encourage, or promote a gang affiliation, loyalty, or membership in such gang or gang-like group, in any way while on school grounds or while attending a school function.

The administrative regulations to Board policy and the Student Code of Conduct also apply to any gang or gang-like activity off school premises which has the effect of significantly disrupting the educational environment, is detrimental to the normal functioning of the school and/or of school activities; is reasonably likely to jeopardize the safety or emotional well-being of any student, staff member, or the school district community at school, on school premises, or at school-sponsored activities; or leads to or is reasonably likely to lead to significant disruption of or significant interference with a safe and productive learning environment, or the creation of an unsafe or disruptive conditions at school or school-sponsored activities. In short, the school administration must be able to show a relationship or nexus between the off school conduct and the need to discipline the student in school.

Any student who is found to engage in gang or gang-like activity, or who disrupts the school environment, facilitates the illegal, delinquent or disruptive acts of a gang or gang-like group within school or on school premises, or whose continued presence creates a reasonable likelihood of harm to any district student or staff member as a result of affiliation or activity with a gang, gang-like group or group formed for the purposes described above, a reasonable likelihood of significant disruption or significant interference with a safe and productive learning environment, or the creation of unsafe or disruptive conditions at school or at school sponsored activities, is subject to discipline, suspension, expulsion and/or referral to law enforcement authorities. In addition, the Michigan School Code requires the District to report gang-related activity crimes to the superintendent of public instruction.

All students accused of violating Board policy and regulations are assured access to the due process hearing procedures and appeal rights outlined in Board policies and regulations.  
Facts and Circumstances to Be Considered

Because the Board of Education believes that the presence of gang members and gang or gang-like activities (as described above) in or outside of school causes a substantial disruption of the educational environment and materially interferes with learning and school activities, students on or about school property or at any school activity or school sponsored event shall not:

Wear, possess, use, distribute, display or sell any overt gang paraphernalia, such as clothing, jewelry, emblem, badge, symbol, color, sign or any other things which are known to be evidence of membership or affiliation with any gang, or membership or affiliation in any gang-like group or other group as described above.

NOTE: Students who wear clothing or accessories that display affiliation with gang-like groups, gangs, or criminally motivated organizations as defined above may be subject to discipline in accordance with the terms of the Code.

Commit any act, or use any speech, either verbal or non-verbal (gestures, hand-shakes, etc.) known to show membership in or affiliation with any gang or gang-like group as defined above.

Use any speech or commit any act to promote, encourage, or advance the interest of any gang or gang-like activity, including but not limited to:

- Soliciting others for a membership in any gangs or gang-like groups as defined above;
- Intimidating or threatening any person as a result of gang affiliation or gang-like activity or other activities described in this regulation;
- Committing any other illegal act or violation of school district policies as part of a gang initiation, or gang-like activity, or as a result of a belief that students are part of a gang;
- Inciting other students to act with physical violence on or off school premises, to engage in criminal activity on or off school premises, or to engage in any significantly disruptive conduct in violation of the Student Code of Conduct and/or Board of Education policies;

- Acting or recruiting with use of intimidation, tagging or marking, assault, battery, theft, trespassing, or extortion, performed by or on behalf of a gang member, gang-like group as defined above, or any such acts intended to further a common criminal objective, or to retaliate for conduct viewed as hostile to a particular gang or gang-like group as defined above;

NOTE: Frequent association with known gang members or gang-like organizations, in or out of school, is one factor that may be considered in determining whether a student is engaged in gang or gang-like activity, but it shall not be the sole factor for concluding Board policy has been violated.

Because gang activity, by its nature, is often subtle or covert, gang activity or affiliation may be implied from the character of a student's acts as well as the circumstances surrounding any misconduct. As a result, one or more of the following shall be considered evidence of gang affiliation, gang conduct or gang-like activity.

- Website or Internet postings describing or reasonably implying the student's membership, affiliation or participation in a gang or gang-like group or activities;
- Any form of Internet communication depicting the student making gang gestures or displaying other overt gang paraphernalia or gang-like affiliation;
- Displays on school assignments or objects, such as notebooks or lockers, of gang names, symbols, paraphernalia, street names, "a.k.a." monikers, etc.
- Posting threats on Internet blogs or otherwise making verbal or written threats in any manner against a district student or staff member, to promote, advertise, or encourage gang activity or affiliation, or on behalf of a gang-like group which is significantly disruptive of the educational environment, is reasonably likely to create anxiety, fear, or other disruption of a student's educational experience, or significantly disturb the health, safety or emotional well-being of a staff member;
- Possessing, selling, or otherwise promoting in any way, lyrics or songs that specifically threaten or encourage physical violence against known gangs or known gang members, or support criminal gang activities.

NOTE: The entirety of the circumstances surrounding any misconduct or violation of this regulation shall be considered.

As needed, the school administration will develop a list of activities identified as gang activity. Any student may offer suggestions or input on curbing these activities, request a copy of the list, if s/he has any question about whether any particular behavior or conduct is considered to be gang activity under this policy. However, this list is not intended to be all-inclusive.

Any student aware of gang activity or gang-related or gang-like activity in violation of these regulations is encouraged to contact Silent Observer at 1.866.774.2345. Your identity will be fully protected. A monetary reward may be available depending on the specificity of the information provided.

#### *Building Authority*

- Any gang graffiti on district premises shall be quickly removed, washed down or painted over as soon as discovered.
- Daily checks for graffiti shall be made throughout the campus, including restroom walls and doors.

- Ways that each segment of the community can help to alleviate these problems.

The superintendent or designee will generate regulations to facilitate the transportation of students.

### Transportation of Special Education Student

Drivers shall be responsible for maintaining safe and orderly conditions on the school bus. Drivers are responsible for reporting student misconduct or inappropriate behavior in a timely manner. The principal is responsible for enforcing student behavior on a school bus or at the bus stop and may use a variety of approaches for problems incurred. They include: verbal warning, written warning, contact with parent/guardian, suspension of bus privileges from one day to the end of the current school year, suspension/expulsion from school, and police contact.

### *Policy Prohibiting Bullying*

The District strictly prohibits the bullying of a District pupil, and also prohibits the retaliation or false accusation against a target of bullying, a witness, or another person with reliable information about an act of bullying. All pupils are protected under this policy; bullying is prohibited at school regardless of its subject matter or motivating animus.

Bullying is defined as any written, verbal, or physical act, or any electronic communication that is intended, or that a reasonable person would know is likely to harm, 1 or more pupils either directly or indirectly by doing any of the following:

- Substantially interfering with educational opportunities, benefits, or programs of 1 or more pupils

- Causing substantial disruption in, or substantial interference with, the orderly operation of the school

Bullying is prohibited "at school", meaning on school premises, at school sponsored activities or events, on a school bus or related vehicle, official bus stops, or a telecommunications access device or service provider owned by or under the school's control. "Telecommunications access device" and "telecommunications service provider" mean those terms as defined in Section 219a of the Penal Code (MCL §750.219a). Bullying that does not occur at school, including "cyber-bullying," may be subject to disciplinary action if it causes a substantial disruption to the educational environment.

## *Policy for Internet Safety*

Kentwood Public School District provides Internet access to students and employees as part of its educational mission. When the Internet is used appropriately, it can provide a wealth of information and resources to supplement classroom learning. Using the Internet can, however, also be potentially dangerous, especially for children who use it without supervision. The District wants to help increase the safety of all children, staff, and students who use the District's Internet resources and will monitor the use of the District's computers for compliance with this Policy.

This Policy applies to your use of the Internet via the District's computers or Internet services. When using the Internet via the District's computers or Internet services, you must follow this Policy. Remember that the "Internet" includes email, chat rooms, the World Wide Web, instant messaging, and other forms of communication via the Internet.

### USE THE INTERNET ONLY FOR EDUCATIONAL PURPOSES.

The Internet should only be used for educational purposes. Students should use the Internet to do homework, complete classroom projects, and learn more about classroom topics. The District recognizes, however, that some personal use is inevitable, and that incidental and occasional personal use that is infrequent or brief in duration is permitted, so long as it occurs on personal time, does not interfere with District business, and is not otherwise prohibited by District policies or procedures. If there is a question about whether the use of the Internet is appropriate, a teacher or another designated person should be contacted to help decide whether a particular Internet use is appropriate.

### BE POLITE AND COURTEOUS WHEN USING THE INTERNET.

As a general rule, one should not do or say things on the Internet that one would not do or say to someone in person. Be polite in the messages that are sent via the Internet. Do not use swear words, vulgarities, obscenities, or threatening language. Be courteous to other users. Do not use the Internet to send harmful or offensive material that is based on stereotypes relating to race, gender, ethnicity, national origin, height, weight, religion or sexual orientation. Bullying using the Internet is also prohibited.

### DO NOT USE THE INTERNET FOR INAPPROPRIATE PURPOSES.

The following inappropriate activities and Internet uses endanger the safety of children using the Internet. For this reason, the District specifically prohibits the following activities when using the Internet. Please note that these are examples of prohibited activity, and not an all-inclusive list.

**No Sending Harmful Materials or Messages.** Do not send or transmit offensive, threatening or harassing messages over the Internet. This includes sending messages via email, posting messages in newsgroups, forums or member sites like MySpace.com and transmitting messages in chat rooms or via instant messaging.

**No Engaging in Illegal, Harassing, or Indecent Activities.** Do not use the Internet for illegal, harassing, vandalizing, or indecent purposes. Illegal activities are any violations of federal, state, or local laws (for example, copyright infringement, publishing defamatory information, or committing fraud). Examples of such activities include, but are not limited to, use of the Internet to trade MP3s or other files that contain pictures, music or movies that are copyrighted, purchase firearms, weapons, drugs, or any other object or substance that is prohibited on school grounds. Do not use the Internet to order materials using the unauthorized identity or credit of another person or entity.

Harassing activities include slurs, comments, jokes, innuendos, unwelcome compliments, cartoons, pranks, or verbal conduct relating to an individual that (1) have the purpose or effect of creating an intimidating, hostile or offensive environment; (2) have the purpose or effect of unreasonably interfering with an individual's work or school performance, or (3) interfere with school operations.

No Viewing Pornography and Other Inappropriate Materials. Do not use the Internet to view, transmit or download pornographic materials or other inappropriate materials that would violate generally accepted social standards for use of publicly-owned and operated equipment.

No "Hacking" and Other Unauthorized Access. Do not use the Internet to "hack" or gain unauthorized access to other computers, networks, or information systems. Do not use another person's password to access the network or the Internet. Do not send messages that mislead or confuse the recipient as to who is sending the message. Do not allow others to use your password.

No Uploading Damaging Materials. Do not upload a worm, virus, "Trojan horse," "time bomb" or other harmful or destructive form of programming or software.

Using the Social network – such as Facebook, SnapChat, Instagram, etc, to intimidate, bully, etc. either on or off school property directed towards another student or staff are strictly prohibited and subject to discipline action.

**DO NOT REVEAL PERSONAL INFORMATION VIA THE INTERNET.**

When personal information is made available via the Internet, one cannot always be sure who will see that information. In order to be safe, students should never reveal personal information like home address, telephone number or Social Security number via the Internet. Do not provide a last name or any other information that might allow a person to locate you without first asking permission of a teacher or supervisor. Never arrange to meet someone who has been communicated with or "met" on the Internet. Do not reveal personal information about another student or person without the permission of that person or the permission of that person's parents.

**USE OF FILTERING SOFTWARE**

The District uses filtering software or other technologies to protect users from exposure to visual depictions that are obscene or constitute pornography. The filtering software or technology also protects users from exposure to any material that is harmful to minors, as defined under 47 U.S.C. § 254(h)(7)(G). Do not attempt to disable this software or technology. Upon request, the filtering software or other technology may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects.

**NO EXPECTATION OF PRIVACY.**

The District reserves the right to monitor or review the user's Internet and e-mail activity, and specifically reserves the right to do so for any reason. The District reserves the right to disclose Internet activity to law enforcement officials, and under some circumstances, may be required to disclose information to law enforcement officials, the public, or other third parties, for example in response to a document production request made in a lawsuit involving the District or by a third party against the user or pursuant to a public records disclosure request. Thus, the user has no legitimate expectation of privacy when using the District's Internet and/or e-mail systems.

## VIOLATION OF THIS POLICY WILL RESULT IN DISCIPLINARY ACTION

The District will take disciplinary action against any user that violates this Policy. Such disciplinary measures may include, without limitation, temporary or permanent termination of the violator's Internet access and suspension or expulsion from school.

## COMPUTER CODE OF CONDUCT

Kentwood Public School District provides a wide range of computer resources to its students and staff for the purpose of advancing the educational mission of the District. As a user of District computers and network, you are expected to review and understand the Acceptable Use Policy.

Protect your user name and password logon information from others. Do not use other users' passwords.

Do not use District computers for illegal, harassing, vandalizing, inappropriate or indecent purposes.

Do not delete or add software to District computers.

Do not use the Internet to access or process pornographic or otherwise inappropriate material.

Be ethical and courteous. Do not participate in hateful, harassing, obscene, discriminatory, or other antisocial behaviors.

District computers may not be used to interfere or disrupt other users, services or equipment, including distribution of unsolicited advertising (Spam), propagation of viruses and distribution of large quantities of information (chain letters, network games or broadcasting messages).

Do not assume that because something is on the Internet that you may copy it. Respect copyrights.

Do not use district computers for commercial or political activity.

## KENTWOOD PUBLIC SCHOOLS STUDENT ACCEPTABLE USE POLICY

Kentwood Public School District ("District") provides a wide range of computer resources to its students and staff for the purpose of advancing the educational mission of the District. These resources are provided and maintained at the District's -- and therefore, the public's -- expense and are to be used by members of the school community with respect for the public trust through which they have been provided. Access to District resources, including the Internet, is a privilege and not a right. The District and its designees will be the sole judge(s) regarding the type, quality and duration of access to computing and Internet resources and may discontinue use at any time, with or without notice, for any reason whatsoever.

The Acceptable Use Policy that follows provides details regarding the appropriate and inappropriate use of District computers. The procedures do not attempt to articulate all required or proscribed behavior by users. Successful operation of the District computer network requires that all users conduct themselves in a responsible, decent, ethical, and polite manner while using the District computers. You, the user, are ultimately responsible for your actions in accessing and using District computers and the District computer network. As a user of District computers, you are expected to review and understand the guidelines and procedures in this document.

Scope: The following applies to all District staff and students, and covers all District computer equipment including any desktop or laptop computers provided to staff, the District computer network, and any computer software licensed to the District.

Appropriate Use: The District expects everyone to exercise good judgment and use the computer equipment in a professional manner. Your use of the equipment is expected to be related to the District's goals of educating students and/or conducting District business. The District recognizes, however, that some personal use is inevitable, and that incidental and occasional personal use that is infrequent or brief in duration is permitted so long as it occurs on personal time, does not interfere with District business, and is not otherwise prohibited by District policy or procedures.

Use of District Software: District software is licensed to the District by a large number of vendors and may have specific license restrictions regarding copying or using a particular program. Users of District software must obtain written permission from the District prior to copying or loading District software onto any computer, whether the computer is privately owned or is a District Computer. Users are not to delete or add software to District Computers without obtaining written permission in advance from the District.

Use of District Hardware: Users of District Computers are expected to respect the District's property and be responsible in using the equipment. Users are to follow any District instructions regarding maintenance or care of the equipment. Users may be held responsible for any damage caused by intentional or negligent acts in caring for District Computers under their control. The District is responsible for any routine maintenance or standard repairs to District Computers. Users are expected to timely notify the District of any need for service.

Use of Non-District Software and Hardware: Prior to loading non-District software onto District Computers (including laptops and desktops), a user must receive permission from the District. All software must be legally licensed by the user prior to loading onto District Equipment. The unauthorized use of and/or copying of software is illegal. It is against KPS practice for staff or students to copy or reproduce any licensed software using KPS computing equipment, except as expressly permitted by the specific software license. Unauthorized use of software is regarded as a serious matter and any such use is without the consent of KPS." Prior to connecting any non-District computer equipment (laptop, desktop, wireless access point, etc.) to the District network, a user must receive written permission from the District.

Prohibited Uses: District Computers may not be used for the following purposes (Please note that this list is illustrative, and is not intended to be all inclusive):

Commercial Use: Using District Computers for personal or private gain, personal business, or commercial advantage is prohibited.

Political Use: Using District Computers for political purposes in violation of federal, state, or local laws is prohibited. This prohibition includes using District computers to assist or to advocate, directly or indirectly, for or against a ballot proposition and/or the election of any person to any office. The use of District Computers for the expression of personal political opinions to elected officials is prohibited. Only those staff authorized by the Superintendent may express the District's position on pending legislation or other policy matters.

Illegal or Indecent Use: Using District Computers for illegal, harassing, vandalizing, inappropriate, or indecent purposes (including accessing, storing, or viewing pornographic, indecent, or otherwise inappropriate material), or in support of such activities is prohibited. Illegal activities are any violations of federal, state, or local laws (for example, copyright infringement, publishing defamatory information, or committing fraud). Harassment includes slurs, comments, jokes, innuendoes, unwelcome compliments, cartoons, pranks, or verbal conduct relating to an individual that (1) have the purpose or effect of creating and intimidating, hostile or offensive environment; (2) have the purpose or effect of unreasonably interfering with an individual's work or school performance, or (3) interfere with school operations. Vandalism is any attempt to harm or destroy the operating system, application software, or data. Inappropriate use includes any violation of the purpose and goal of the network. Indecent activities include violations of generally accepted social standards for use of publicly-owned and operated equipment.

Using the unauthorized identity or credit of another person or entity without their expression permission is prohibited.

Bullying using the Internet is prohibited.

Non-District Employee Use: District Computers may only be used by District staff and students, and others expressly authorized by the District to use the equipment.

Email Use: Students may not access personal email accounts unless it directly relates to their course work and approval is given by the teacher or supervisor.

Disruptive Use: District Computers may not be used to interfere or disrupt other users, services, or equipment. For example, disruptions include distribution of unsolicited advertising ("Spam"), propagation of computer viruses, distribution of large quantities of information that may overwhelm the system (chain letters, network games, or broadcasting messages), and any unauthorized access to or destruction of

District Computers or other resources accessible through the District's computer network ("Cracking" or "Hacking").

Privacy: District Computers, the Internet, and use of email are not inherently secure or private. For example, the content of an email message, including attachments, is most analogous to a letter or official memo rather than a telephone call, since a record of the contents of the email may be preserved by the sender, recipient, any parties to whom the email may be forwarded, or by the email system itself. It is important to remember that once an email message is sent, the sender has no control over where it may be forwarded and deleting a message from the user's computer system does not necessarily delete it from the District computer system. In some cases, emails have also been treated as public records in response to a public records disclosure request. Likewise, files, such as Internet "cookies" may be created and stored on a computer without the user's knowledge. Users are urged to be caretakers of their own privacy and to not store sensitive or personal information on District Computers. Use of the Internet, and information and available resources, are at the user's own risk. The District makes no warranties of any kind, either express or implied, for the services/products/access it provides and is not responsible for damages of any kind whatsoever or for the security of the user's personal information.

Users have no legitimate expectation of privacy. The District reserves the right to do monitor or review individual user's Internet and e-mail use for any reason. The District specifically reserves the right to monitor and review the information for a variety of reasons, included, but not limited to, analyze the use of systems or compliance with policies, conduct audits, review performance or conduct, obtain information, or for other reasons. The District reserves the right to disclose any electronic message to law enforcement officials, and under some circumstances, may be required to disclose information to law enforcement officials, the public, or other third parties, for example, in response to a document production request made in a lawsuit involving the District or by a third party against the user or pursuant to a public records disclosure request.

#### Using the Internet Wisely

Be circumspect about where you go and what you do. Do not visit any site or download or share any material that might cause anyone to question your professionalism, or the District's.

Read the "License" or "Legal" contract terms on every site. Do not purport to bind the District to any license or other contract. If you make an agreement on your own behalf, do not violate that agreement using the District equipment or Internet account.

Do not assume that just because something is on the Internet, you may copy it. As a general rule, assume that everything is copyrighted and do not copy it unless there is a notice on the site stating that you may do so. For example, if you see a clever cartoon assume that you may NOT copy it. Governmental documents are an exception (you may copy them), but you must confirm that it is the "government" and not a government-related entity such as the post office.

You can create liability for yourself and the District. For example, if you "publish" (type or re-send) words that defame or disparage another individual or institution, if you upload or download or re-send copyrighted or pornographic material, if you use the Internet to harass or discriminate against someone, or if you provide private information or data about someone, you may violate applicable laws or District policy. Make sure none of your activities violate any law or policy.

Do not engage in any "spamming" or other activities that could clog or congest Internet networks.

Discipline: The Appropriate Use Procedures are applicable to all users of District Computers and refers to all information resources whether individually controlled, shared, stand alone, or networked. Disciplinary action, if any, for students, staff, and other users shall be consistent with the District's standard policies and practices. Violations may constitute cause for revocation of access privileges, suspension of access to District computers, other school disciplinary action, and/or appropriate legal action. Specific disciplinary measures will be determined on a case-by-case basis.
